

## Scientific Evidence to Battle Undirected Naturalism

Dr. Don Johnson holds doctoral degrees in both natural and informational sciences, worked for 10 years as a senior research scientist, taught for 20 years in universities in the US and Europe, and has made thought-provoking presentations on most continents. These resources highlight science (no religious stance, and are appropriate for use in public schools) with over 350 references.

PN&NP counters unsubstantiated claims purported to be science, especially in areas of origins of mass/energy, life, and species. It debunks misconceptions concerning intelligent design, and highlights ID's contributions. Although it's totally secular, it's the best book for Biblical support (it's explicitly pro-ID).

"His references were overwhelming and I was surprised at how many actual scientists agreed with him." Greg McElveen

"a wonderful book that lays out the arguments in support of ID in a clear and concise manner.... questions it raises are bound to stump even the most vociferous anti-IDists!" Robert Deyes

"concise, objective and of great value." Steve McMillan

The PoL video, with fantastic animations, is viewable free online (link at [www.4iam.org](http://www.4iam.org) or [programmingoflife.info](http://programmingoflife.info) to view).

"It's a wonderful video... certainly helped me appreciate that we are fearfully and wonderfully made." (A Pastor's note)

PoL highlights informational aspects of life that are usually overlooked or ignored in chemical and biological evolutionary scenarios. Each cell of an organism has thousands of interacting computers reading and processing digital information using algorithmic digital programs and digital codes to communicate information. It's the strongest evidence against Darwinism, exposing the fallacies of attempts to explain life's information systems from physical interactions.

Author "is uniquely qualified to unpackage the strong parallels between everyday cybernetic design and engineering and the workings of the cell. I highly recommend this book." David Abel

"This is... the best book covering the relationship between genome and computer architectures." Jonathan Bartlett

"This book addresses head on an issue which has been retarding understanding of life--failure to adequately consider its information processing aspects." M. Hedge

These resources are totally secular, using only empirical and known science to prove that nature demonstrates intelligent design (ID), implicitly in PoL. No claim is made as to the identity of the agent of design, which is a philosophical or theological belief (as opposed to empirical science). Other books also available.

See [scienceintegrity.org](http://scienceintegrity.org) for updates & details on the books and other services, including presentations or consultation on life's information or ID ([www.programmingoflife.info](http://www.programmingoflife.info) has PoL info). [www.4iam.org](http://www.4iam.org) has Christian info.

(This is available at [www.4iam.org](http://www.4iam.org) Christian Website & can be printed 2-sided & cut for 1/2 sheet) 6/9/15

## Important Note for Christian Leaders and Parents

My secular [scienceintegrity.org](http://scienceintegrity.org) deals only with science, describing my background, books, and secular presentations in which the Bible or promoting religious doctrine would be inappropriate. The books and secular presentations break down the intellectual barriers that prevent seeing the reality of design, and seeking its source (Mt 7:7). Unfortunately, many people (especially scientists) dismiss out-of-hand any evidence that has any religious implications. I don't try to hide my Christianity, but I don't advertise it for a purely secular presentation since the evidence (being purely science) presented does not depend on my faith.

My Bible-based Website ([www.4iam.org](http://www.4iam.org)) has faith-based information and presentation links; e.g. "Science Christians Need to Know" (not too technical) and a 6-part series on creation/evolution & science facts that go beyond empirical science to explain beliefs and the reasons for those beliefs. As I've pointed out to Christian audiences, if I could prove that the God of the Bible is the Designer, faith would be unnecessary since the Christian God would be proven scientific fact. My ministry to Christians is to build up the Saints and equip them to teach their children and defend their faith in a scientifically-based and intellectually satisfying manner, as well as increasing one's confidence that the Bible is truly amazing in its scientific insights. Many Christians have the view "The Bible says it, I believe it, and that settles it!" While "blind faith" may be easiest, the Bible never encourages God's followers to take the easy road. We are told to "Always be prepared to give an answer to everyone who asks you to give the reason for the hope that you have" (1 Pet 3:15). In an August 2012 peer-reviewed paper "Science, Religion, and Society: the Problem of Evolution in America" [Evolution, pages 2654-2663, 8/2012], atheist Jerry Coyne cites a 2011 Gallup poll that only "16% accepted that humans evolved from earlier species through a process unguided by God (nontheistic evolution)," and a 2005 Harris poll [PollingReport.com] that just 12% of respondents thought that schools should teach only naturalistic evolution. He acknowledges "that America's resistance to evolution is truly a byproduct of America's extreme [theistic] religiosity," which has caused a resistance to science in general (why pursue a field of study that seeks to destroy core beliefs?). Coyne's solution to this problem "is to work actively to weaken the grasp of religion on America," thus declaring jihad on theism. What Coyne fails to realize is that HIS BELIEFS ARE RELIGIOUS (see [ussci.info](http://ussci.info) links). The US Supreme Court has indicated that "religious beliefs... are based... upon a faith, to which all else is subordinate or upon which all else is ultimately dependent" [US v. Seeger, 380 U.S. 163, 1965]. The assertion that "physicality is all there is" (as taught in public schools) is a RELIGIOUS tenet, since it cannot be proven and all else is subordinate to it.

It takes effort and dedication to become equipped to counter the pseudo-scientific speculations that are portrayed as science. Many people find my books and presentations challenging, mainly because they don't have the background or desire to learn science (their minds often shut down because of scenarios falsely presented as fact - see [ussci.info](http://ussci.info)). I became extremely interested in science by age 8, and developed into a staunch evolutionist by age 10. My parents and Sunday School teachers were unable to answer my science concerns that seemed to contradict the Bible. Thankfully, God drew me into His Kingdom, and I accepted Jesus as savior at age 12. But nobody was able to counter what I erroneously believed was scientific truth, so I continued to believe in, defend, and teach chemical and biological evolution for another 18 years after becoming a Christian! We are at war with those blind to Truth (1 Cor 1:18-2:16) - "They exchanged the truth of God for a lie." "Although they claimed to be wise, they became fools and exchanged the glory of the immortal God for images made to look like man and birds and animals and reptiles" (Rom 1:22)- God didn't make us, evolution did. My books and presentations are resources for the battle that will only become more intense. Email inquiries or desire for updates to [don@4iam.org](mailto:don@4iam.org). - Don
